Trend Micro™

WORRY-FREE SERVICES

Cloud-based, enterprise-grade protection for your business devices and email

A growing number of businesses are being victimized by cybercriminals' data theft schemes that use sophisticated and advanced targeted attacks – custom-built to bypass traditional antivirus.

You probably know that it's an absolute necessity to have a strong security solution to protect your staff, computers, and mobile devices from cyber threats. But, you may not know what kind of protection is best for your business.

Trend Micro™ Worry-Free Services Advanced, powered by XGen™ security, is cloud-based security specifically designed to protect all of your devices. To save you time and resources, and to ensure you always have the latest protection, it is hosted, maintained, and updated by Trend Micro.

Worry-Free Services is an affordable and easy-to-use solution that gives you industry-leading, enterprise-grade protection. It allows you to:

- Manage the security of all your devices (Windows®, Mac, mobile) from one web console

- Focus on your business due to the fact that updates are automatic and keep your security always-up-to-date

- Enforce security policy to employees anywhere—even at branch offices and in their homes

- Enjoy affordable pricing with annual subscription billing
